

Flemish Network - User Guide

Current interface / Page-by-page instructions

This guide follows the current navigation: Network, Collections, Grow, and Settings. Labels in bold are the labels shown in the app.

Screenshots were captured from the running application. Empty states reflect the current test workspace.

Access, roles, and navigation

PURPOSE

sign in and understand which controls are available.

HOW TO USE

- 1 Sign in with an approved staff email and password.
- 2 Use Network, Collections, Grow, or Settings in the top navigation.
- 3 Select your name to open My Account. Select the sign-out icon to end the session.

Viewer: view and search records and collections. · Editor: also edit records, manage collections, use Grow, and review changes. · Admin: also manage staff access, schedules, and permanent deletion where offered.

Networks / Map

PURPOSE

find where people and organizations are located.

HOW TO USE

- 1 Open Network and select Map.
- 2 Enter a name or descriptive request in the search box. Press Enter or choose an autofill result.
- 3 Open Filters and choose People, Organizations, People Scope, Sector, Occupation, or a Flemish Connection.
- 4 With several criteria active, choose All or Any.
- 5 Select a map marker or location cluster to inspect the records there.
- 6 Select an active filter chip to remove it, or choose Reset All Filters.

Search text and filters are separate. Typing a query does not automatically select filter values.

Networks / List

PURPOSE

scan matching records in a structured list.

HOW TO USE

- 1 Open Network and select List.
- 2 Search and filter as on the Map view.
- 3 Open a person or organization card to view the full profile.
- 4 If a city was selected on the map, clear the focused city to return to all results.
- 5 Use the available collection or export controls for the displayed results.

Networks / Stats

PURPOSE

review network distribution and coverage.

HOW TO USE

- 1 Open Network and select Stats.
- 2 Review totals and charts for locations, sectors, occupations, Flemish connections, and data quality.
- 3 Select a chart segment or category to focus on that subset.
- 4 Use the offered View in Network action to open the filtered records.

Person profile

PURPOSE

review one person and maintain the approved record.

HOW TO USE

- 1 Open a person from Network or a collection.
- 2 Review identity, current position, location, contact links, US connections, biography, Flemish connections, and sectors.
- 3 Editors can select Edit, change fields, and select Save.
- 4 Select Verify to run an evidence check and review proposed changes before applying them.
- 5 Select Add to Collection to add the person to an existing collection.
- 6 Use Print for a printable profile. Admins can use Delete when the approved record must be permanently removed.

Organization profile

PURPOSE

review an organization and its relationship to the network.

HOW TO USE

- 1 Open an organization from Network or a collection.
- 2 Review type, location, website, description, Flemish connection, sectors, and key contacts.
- 3 Editors can select Edit Organization, change fields, and select Save Changes.
- 4 Select Verify to check external evidence.
- 5 Select Add to Collection or open a listed key contact.

Collections

PURPOSE

create working lists for missions, events, outreach, or research.

HOW TO USE

- 1 Open Collections.
- 2 Select New Collection.
- 3 Enter a name and optional description, then save.
- 4 Select a collection card to open its detail page.

Collection detail

PURPOSE

manage members and generate targeted suggestions.

HOW TO USE

- 1 Review members, edit the collection name or description, add notes, remove members, or export the collection.
- 2 Select Find Collection Suggestions.
- 3 Open a suggestion to preview it; choose Approve or Reject. Use Undo when needed.
- 4 Select Add Approved to save the approved suggestions as members.
- 5 Use Refresh for a new draft or Reset to clear the current draft.
- 6 If the collection is empty, use Browse Network or Launch Discovery. Launch Discovery only pre-fills a prompt; the run starts after Run Discovery is selected.

Grow / Import / Add Manually

The screenshot shows the 'Grow' interface with the 'Import' tab selected. Under 'Import Records', the 'Add Manually' option is chosen. The form is divided into two sections: 'People' and 'Organizations'. The 'People' section is active, showing fields for Title (dropdown), First Name (text input with 'Jan'), Last Name (text input with 'De Vries'), Position / Title (text input with 'Research Scientist at MIT'), Occupation (dropdown with 'Select Occupation'), People Scope (radio buttons for 'US-based' and 'US-connected abroad', with 'US-based' selected), and US Base City & State (dropdown with 'Search US city...').

PURPOSE

enter one pending person or organization.

HOW TO USE

- 1 Open Grow / Import and select Add Manually.
- 2 Choose People or Organizations.
- 3 Enter the known fields, network scope, Flemish connection, and source evidence.
- 4 Select Create Pending Contact or the corresponding organization action.
- 5 Review the candidate later under Grow / Verification.

Manual intake does not change approved records directly.

Grow / Import / Import File

PURPOSE

create several pending candidates from a file.

HOW TO USE

- 1 Open Grow / Import and select Import File.
- 2 Choose People or Organizations.
- 3 Download a CSV or Excel template if useful, then upload CSV, TSV, TXT, XLS, or XLSX.
- 4 On Map Columns, connect file columns to app fields and select Preview Import.
- 5 On Confirm Import, review conflicts and invalid rows.
- 6 Select Create Pending Candidates. Conflicting and invalid rows are skipped.
- 7 Review the created candidates under Grow / Verification.

Grow / Discovery

The screenshot shows the 'Grow' section of the application. At the top, there is a navigation bar with 'Network', 'Collections', 'Grow' (selected), and 'Settings'. A search icon and 'LT Local Test Admin' are on the right. Below the navigation bar, the 'Grow' section has sub-tabs: 'Import', 'Discovery' (selected), 'Runs', 'Verification', and 'Maintenance'. The main content area is titled 'Launch Discovery' and contains a 'Discovery prompt' text box with the placeholder text: 'Find KU Leuven alumni in Boston biotech, Flemish founders in California, or leave blank for a seeded discovery sweep.' Below the text box is a green button labeled 'Run Discovery' with a magnifying glass icon. To the right of the button is the text 'Creates pending people and organizations for review.' Below this, there is a section titled 'Where to look next' with a '20' badge. It contains the text: 'Focused proposals based on gaps in the current network. Review the categories, then launch the most useful search.' To the right of this text are two buttons: 'Refresh proposals' and 'Launch next proposal' (with a magnifying glass icon).

PURPOSE

find new candidates from a plain-language request or a suggested search direction.

HOW TO USE

- 1 Review Where to look next. Use Refresh proposals to regenerate suggestions.
- 2 Select Launch on one proposal, or Launch next proposal.
- 3 Alternatively, enter a Discovery prompt. Leave it blank for a seeded sweep.
- 4 Select Run Discovery.
- 5 Follow progress under Grow / Runs and review candidates under Grow / Verification.

Discovery creates pending people and organizations. It does not approve them.

ImportDiscoveryRunsVerificationMaintenance

Run History

Discovery and verification runs, including their outcomes and operational details.

Refresh

RUN	STARTED	OUTCOME	COST
Completed Verification	Sep 15, 02:00 AM 9s	No new records	\$0.0005
Completed Verification	Sep 15, 02:00 AM 21s	No new records	\$0.0020
Completed Discovery	Sep 15, 02:00 AM 1m 1s	3 new records 1 person · 2 organizations 1 record merged · 5 pages reviewed · 10 sources selected	\$0.1050
Completed Verification	Sep 15, 01:40 AM <1s	No new records 0 people	—
Completed	Sep 15, 01:00 AM	No new records	\$0.0005

PURPOSE

monitor discovery and verification work.

HOW TO USE

- 1
- Open Grow / Runs.
- 2
- Review status, start time, duration, outcome, records, activity, and estimated cost.
- 3
- Select View details to inspect run steps and errors.
- 4
- Select Refresh to reload the list.
- 5
- Use Cancel only for a queued or running job that should stop.

The number on the Runs tab is the current active-run count.

Grow / Verification

PURPOSE

decide what happens to newly discovered people and organizations.

For Pending Discovered People and Pending Discovered Organizations:

HOW TO USE

- 1 Wait until verification finishes and the status is Verified.
- 2 Check identity, location, current role or organization type, source evidence, and proposed details.
- 3 Select Approve to create a new approved record.
- 4 Select Reject when the candidate should not be kept.
- 5 Select Merge when the candidate duplicates an existing record; compare the fields before confirming.

Bulk approve excludes detected duplicates. Bulk reject is available only for verified rows.

Grow / Maintenance

The screenshot shows the 'Grow' section of the application, specifically the 'Maintenance' tab. The top navigation bar includes 'Network', 'Collections', 'Grow', and 'Settings'. The 'Grow' section has sub-tabs for 'Import', 'Discovery', 'Runs', 'Verification', and 'Maintenance'. The 'Maintenance' tab is active, showing 'Records Freshness' and 'Maintenance Runs'.

Verification

idle

Last success
Sep 15, 02:00 AM
9s

Last failure
Sep 14, 02:00 PM

PURPOSE

keep approved records, scheduled agents, and the search index current.

HOW TO USE

- 1 Under Records Freshness, open an older record and start a check, or select Mark Current when no check is needed.
- 2 Review Discovery and Verification service cards; start a run manually when required.
- 3 Admins can set a schedule to Off, Light, Normal, or Aggressive.
- 4 Check the search-index queue and select Drain now when pending work should run immediately.
- 5 Use Run Housekeeping to clear stuck runs; cancel an individual stuck run if needed.
- 6 Under Profile Update Suggestions and Organization Update Suggestions, compare old and proposed values, evidence, confidence, and risk; then approve or reject selected changes.

Settings / System

PURPOSE

inspect usage, integrations, and maintenance definitions.

HOW TO USE

- 1 Open Settings / System.
- 2 Review today's API totals and the 14-day Gemini and Tavily chart.
- 3 Review the visible Light, Normal, and Aggressive run-intensity definitions.
- 4 Check Connected Services.
- 5 Use the secure links to add backend API keys or manage frontend variables.
- 6 Select Test Supabase to test connectivity and Refresh to reload status.

Secret values are managed by the linked service and are not displayed in the app.

PURPOSE

manage staff access. This page is admin-only.

HOW TO USE

- 1

Enter an email, optional full name, and role.
- 2

Select Add Access to send an invitation.
- 3

In the staff list, change a name or role and select Save.
- 4

Select Remove to revoke the account. The person must be invited again to return.

Settings / My Account

The screenshot shows the 'Settings / My Account' page. At the top, there is a navigation bar with icons for Network, Collections, Grow, and Settings. The 'Settings' tab is active. Below the navigation bar, there is a search icon and a user profile dropdown showing 'LT Local Test Admin'. The main heading is 'Settings', with sub-tabs for System, Access, and My Account. The 'My Account' sub-tab is selected. The 'My Account' section has a title 'My Account' and a subtitle 'Manage your staff profile for this workspace.' There is a green badge with 'admin' and a shield icon. Below this, there are input fields for 'Email' (local-test-20260914@flemish-network.test) and 'Role' (admin). There is also a 'Full name' field with 'Local Test Admin'. A yellow 'Save Changes' button is below the 'Full name' field. At the bottom, there is a 'Password' section.

PURPOSE

maintain your staff profile and password.

HOW TO USE

- 1 Select your name in the top navigation or open Settings / My Account.
- 2 Change Full name and select Save Changes.
- 3 To change the password, enter and confirm a new password.
- 4 Use at least 12 characters with uppercase, lowercase, number, and symbol characters.
- 5 Select the password update button and wait for confirmation.

Sign in and password recovery

The image shows a 'Staff Sign In' form within a light blue rounded rectangle. At the top left of the form is a yellow shield icon. Below it, the title 'Staff Sign In' is followed by a note: 'Access is limited to approved Flemish Network staff accounts.' The form contains two input fields: 'Email' with a placeholder 'name@organization.org' and a mail icon, and 'Password' with a key icon. Below these are two buttons: a yellow 'Sign In' button with a shield icon and a white 'Reset Password' button with a mail icon.

PURPOSE

start a session or request a password reset.

HOW TO USE

- 1 On Staff Sign In, enter your approved email and password.
- 2 Select Sign In.
- 3 For a reset, enter the approved email and select Reset Password.
- 4 Open the email link and set a new password on My Account.
